PRIVATE PAY POLICIES

The Chatter Box is currently considered out of network for insurance coverage with all insurance companies except Anthem, Cigna and Tricare. It is our policy to provide parents that have other insurance carriers with the necessary information they need to recoup funds spent on evaluation and intervention services through their out of network benefit. An invoice/receipt with verification of payment, taxpayer ID, credentials and location of therapist, diagnosis and treatment codes as well as child and family information is provided to the family via email following each therapy visit. Payment from parents/guardians is due at time of service, with the exception being those families that are with the above mentioned carriers, in which case we will file for insurance reimbursement. A number of families use their flexible spending and/or health savings accounts for services, and we have the ability to bill an HSA/FSA card directly. It has been our experience that, with rising deductibles and increased annual limits on services, many families find direct billing of their HSA or paying out of their flexible spending accounts is easier and, in some cases, more affordable than billing with an in-network provider. We always encourage families to compare all aspects of services being provided, including rates, before making a decision to work with a specific provider.
